

Presentation8 Complete Reference

Health Economics Presentations • All 20 Layouts + Logo Setup

Version 1.0 • VUMC Center for Health Economic Modeling • December 2024

Quick Start

Setup (One Time)

1. Get `_extensions/` folder
2. Copy `template.qmd`
3. You're ready!

Create Presentation

1. Copy template → rename
2. Edit YAML header
3. Add slides using layouts
4. Render!

YAML Header Template (Copy This)

```
---
title: "Your Presentation Title"
subtitle: "Optional Subtitle"
author: "VUMC - Center for Health Economic Modeling"
date: "December 2024"
format:
  revealjs:
    theme: [default, _extensions/presentation8/custom-brand.scss]
    logo: images/partner-logos.png # ← Add your logo
    slide-number: c/t
    show-slide-number: all
    transition: fade
    background-transition: fade
    margin: 0.1
---
```

Logo Setup

Method 1: Built-in (Easiest)

```
# In YAML header:
format:
  revealjs:
    logo: images/logos.png
```

- ✓ Automatic on all slides
- ✓ Responsive sizing
- ✓ Bottom-right position

Method 2: Custom Position

```
# After YAML header:
::: {.slide-logo .bottom-left .multi-logo}
![] (images/bloomberg.png)
![] (images/data-health.png)
![] (images/cdc.png)
![] (images/vital.png)
![] (images/vumc.png)
:::
```

Logo Best Practice

Combine all partner logos into one PNG (1200×150px, transparent background), save as `images/partner-logos.png`, use Method 1.

★ Essential Layouts (Use These 80% of the Time)

1 Numbered Overview

First slide • Learning objectives • Agenda

ESSENTIAL

```
## {.numbered-list-slide}

<h2>Overview</h2>

::: {.number-list}
::: {.list-item}
<div class="number">01</div>
<div class="text">First topic</div>
:::
:::
```

2 Section Divider

Between major topics • Chapter breaks

ESSENTIAL

```
## Section Title {.section-slide}

::: {.section-number}
01
:::
```

3 Info Cards

2-4 concepts • Comparisons • Definitions

ESSENTIAL

```
::: {.info-cards}
::: {.card}
**Heading**

Content here with:

- Bullet points
- Multiple items
:::
:::
```

4 Stats Grid

Key metrics • Model parameters • Numbers

ESSENTIAL

```
::: {.stats-grid}
::: {.stat-box}
<div class="stat-value">42</div>
<div class="stat-label">Label</div>
<div class="stat-description">Details</div>
:::
:::
```

5 Icon Bullets

Key takeaways • Summary • Important points

ESSENTIAL

```
::: {.icon-bullets}
- First key point
- Second key point
- Third key point
:::
```

6 Concept Grid

4+ related items • Categories • Options

ESSENTIAL

```
::: {.concept-grid}
<div class="concept-box">Item 1</div>
<div class="concept-box">Item 2</div>
<div class="concept-box">Item 3</div>
<div class="concept-box">Item 4</div>
:::
```

Content Layouts

7 Split Content

Text + visual • Half-and-half • Image with text

```
::: {.split-content}
::: {.content-text}
**Heading**
- Point one
:::
::: {.content-visual}
![] (image.png)
:::
:::
```

8 Two Column Text

Text-heavy content • Advantages/challenges

```
::: {.two-column-text}
::: {.column}
### Left Column
Content here
:::
::: {.column}
### Right Column
More content
:::
:::
```

9 Comparison Table

Compare 2-4 options • Treatment choices

```
::: {.comparison-table}
::: {.comparison-column}
<div class="column-header">Option A</div>
<div class="column-content">
- Feature 1
</div>
:::
:::
```

10 Definition Box

Define terms • Concepts with examples

```
::: {.definition-box}
<div class="term">Term</div>
<div class="definition">Definition</div>
::: {.example}
<div class="example-label">Example:</div>
<div class="example-text">Details</div>
:::
:::
```

11 Highlight Box

Callouts • Important info • Key takeaway

```
::: {.highlight-box}
<div class="box-title">Important</div>
Key information here
:::

# Variants: .primary .secondary
```

12 Image Grid

Multiple images • Examples • Gallery

```
::: {.image-grid}
::: {.image-item}
![] (img1.png)
<div class="image-caption">Label</div>
:::
:::

# Fixed: .grid-2x2 .grid-3x3
```

Process & Timeline Layouts

13 Process Flow

Steps • Methodology • Workflow

```
::: {.process-flow}
::: {.step}
<div class="step-number">1</div>
<div class="step-title">Title</div>
<div class="step-content">Details</div>
:::
:::
```

14 Timeline

Chronological steps • Project phases

```
::: {.timeline}
::: {.timeline-items}
::: {.timeline-item}
<div class="timeline-marker">1</div>
<div class="timeline-content">
<div class="timeline-title">Step</div>
<div class="timeline-description">Info</div>
</div>
:::
:::
:::
```

Special Purpose Layouts

15 Pros & Cons

Advantages/disadvantages • Comparison

```
::: {.pros-cons}
::: {.pros-column}
### Advantages
- Point one
:::
::: {.cons-column}
### Disadvantages
- Point one
:::
:::
```

16 Quote Slide

Quotations • Key statements

```
## {.quote-slide}

<div class="quote-text">
Your quote here
</div>
<div class="quote-author">Name</div>
<div class="quote-context">Title</div>
```

17 Big Number

Single key statistic • Impact number

```
## {.big-number-slide}

<div class="big-number">$50K</div>
<div class="big-number-label">Label</div>
<div class="big-number-context">
Context here
</div>
```

18 Checklist

Tasks • Requirements • Validation

```
::: {.checklist}
### Title

- [ ] Unchecked item
- [x] Checked item
- [ ] Another item
:::
```

19 Lecture Divider

Dark section break • Next topic

```
## Next Lecture {.lecturediv-slide}

Topic Name Here
```

20 Geometric Accents

Background decorations • Visual interest

```
## Title {data-background-class="circle-accent"}

# Options: chevron-accent,
# circle-accent, triangle-accent,
# quarter-circle-accent,
# rounded-rect-accent,
# half-circle-accent,
# diagonal-stripe-accent
```

Layout Decision Guide

I Need To...	Use Layout	Class/Syntax
Start presentation	#1 Numbered Overview	.numbered-list-slide
Break between topics	#2 Section Divider	.section-slide
Show 2-4 concepts	#3 Info Cards	.info-cards
Display metrics	#4 Stats Grid	.stats-grid
Summarize points	#5 Icon Bullets	.icon-bullets
Compare options	#9 Comparison Table	.comparison
